

FOR IMMEDIATE RELEASE

Geometric launches GeomCaliper™ version 1.3 making thickness checking of complex models faster and easier

Mumbai, India, March 14th 2006 - Geometric Software Solutions (NSE : GEOMETRIC), a leader in product lifecycle management (PLM) services and technologies, today announced the immediate availability of GeomCaliper™ for CATIA V5 version 1.3.

GeomCaliper is a design tool for the quick and accurate measurement of thickness in 3D models. GeomCaliper is invaluable for thickness measurements in the early stage design of consumer products, plastic injection molded parts, castings and powertrain part design. GeomCaliper provides advanced visualization capabilities for both 2D (in section) and 3D thickness to quickly focus in on areas of interest to users. It also features reporting tools in XML/HTML format to share findings with dispersed design teams quickly.

Version 1.3 is supported on CATIA®V5 R12, R13, R14, R15 and R16.

With this new release of GeomCaliper™ users can additionally,

- Clip model at any section
- Precisely control the positioning of cutting plane for thickness analysis at section
- Check critical wall thickness at hidden areas in the model
- Automatically locate critical thickness areas through innovative visualization

Availability

GeomCaliper™ can be purchased from a worldwide network of resellers. A 15-day trial version of GeomCaliper™ is available from Geometric's website <http://geomcaliper.geometricsoftware.com>.

About Geometric Software Solutions

Geometric is a leader in providing the most cost-effective product lifecycle management (PLM) services and technologies to the global mechanical design, manufacturing, and industrial markets. Partnerships with major PLM vendors such as Dassault Systèmes, UGS PLM Solutions, and MatrixOne offer the unique advantage of providing cost effective services on leading PLM platforms. Geometric offers services based on SolidWorks, CATIA™, ENOVIA™, DELMIA™, eMatrix™, Teamcenter Enterprise (Metaphase)™, Windchill™, and other leading CAD/CAM/CAE/PDM software platforms. The company is traded on both the Bombay (BSE) and the National (NSE) stock exchanges in India. The company's Web site is <http://www.geometricsoftware.com/>
